SUBJECT: Briefing Materials for Senator Jackson

REMARKS:

The attached memo from George Cary was mentioned by Mr. Proctor at this morning's Executive Council Meeting. He wants to be responsive to the request but wants our comment to carry the lowest possible classification. Please give us your input by COB 20 March; it should be in blind memo format.

OER is handling Paragraph 1, and OCI is taking care of the request in Paragraph 2. Please provide the information requested in Paragraph 3. You will probably want to farm out some of the work to FBIS.

REMARKS:

The attached memo from George Cary was mentioned by Mr. Proctor at this morning's Executive Council Meeting. He wants to be responsive to the request but wants our comment to carry the lowest possible classification. Please give us your input by COB 20 March; it should be in blind memo format.

OER's input should be confined to the request in Paragraph 1 of the attached, i.e., information on the technology the Chinese are "in the market for." If you have on-shelf information that would help answer some of the questions posed in Paragraph 2, please get in touch with Dick Lehman's people to provide the necessary assistance.

I have asked OER to provide input for Paragraph 1 and OSR to handle Paragraph 3. Could you please provide the information requested by Cary in Paragraph 2. Please utilize whatever on-shelf material might be available. It might be helpful to touch base with and others in OPR. Also, I have asked Ernst to provide OCI with whatever information OER may have on the technical assistance that Russia provided the Chinese.
